

# REDAPTIVE

## Sustainable & Scalable Energy Solutions for your Manufacturing Operation

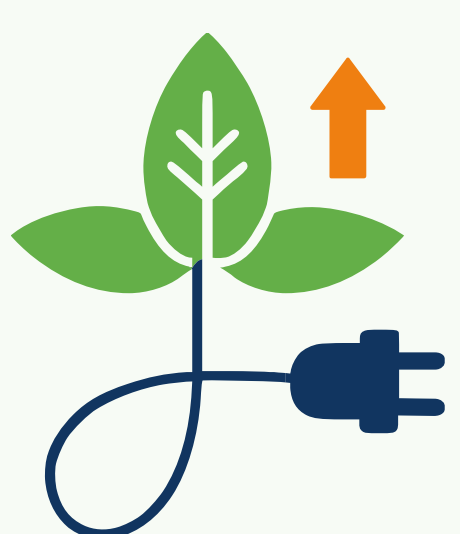

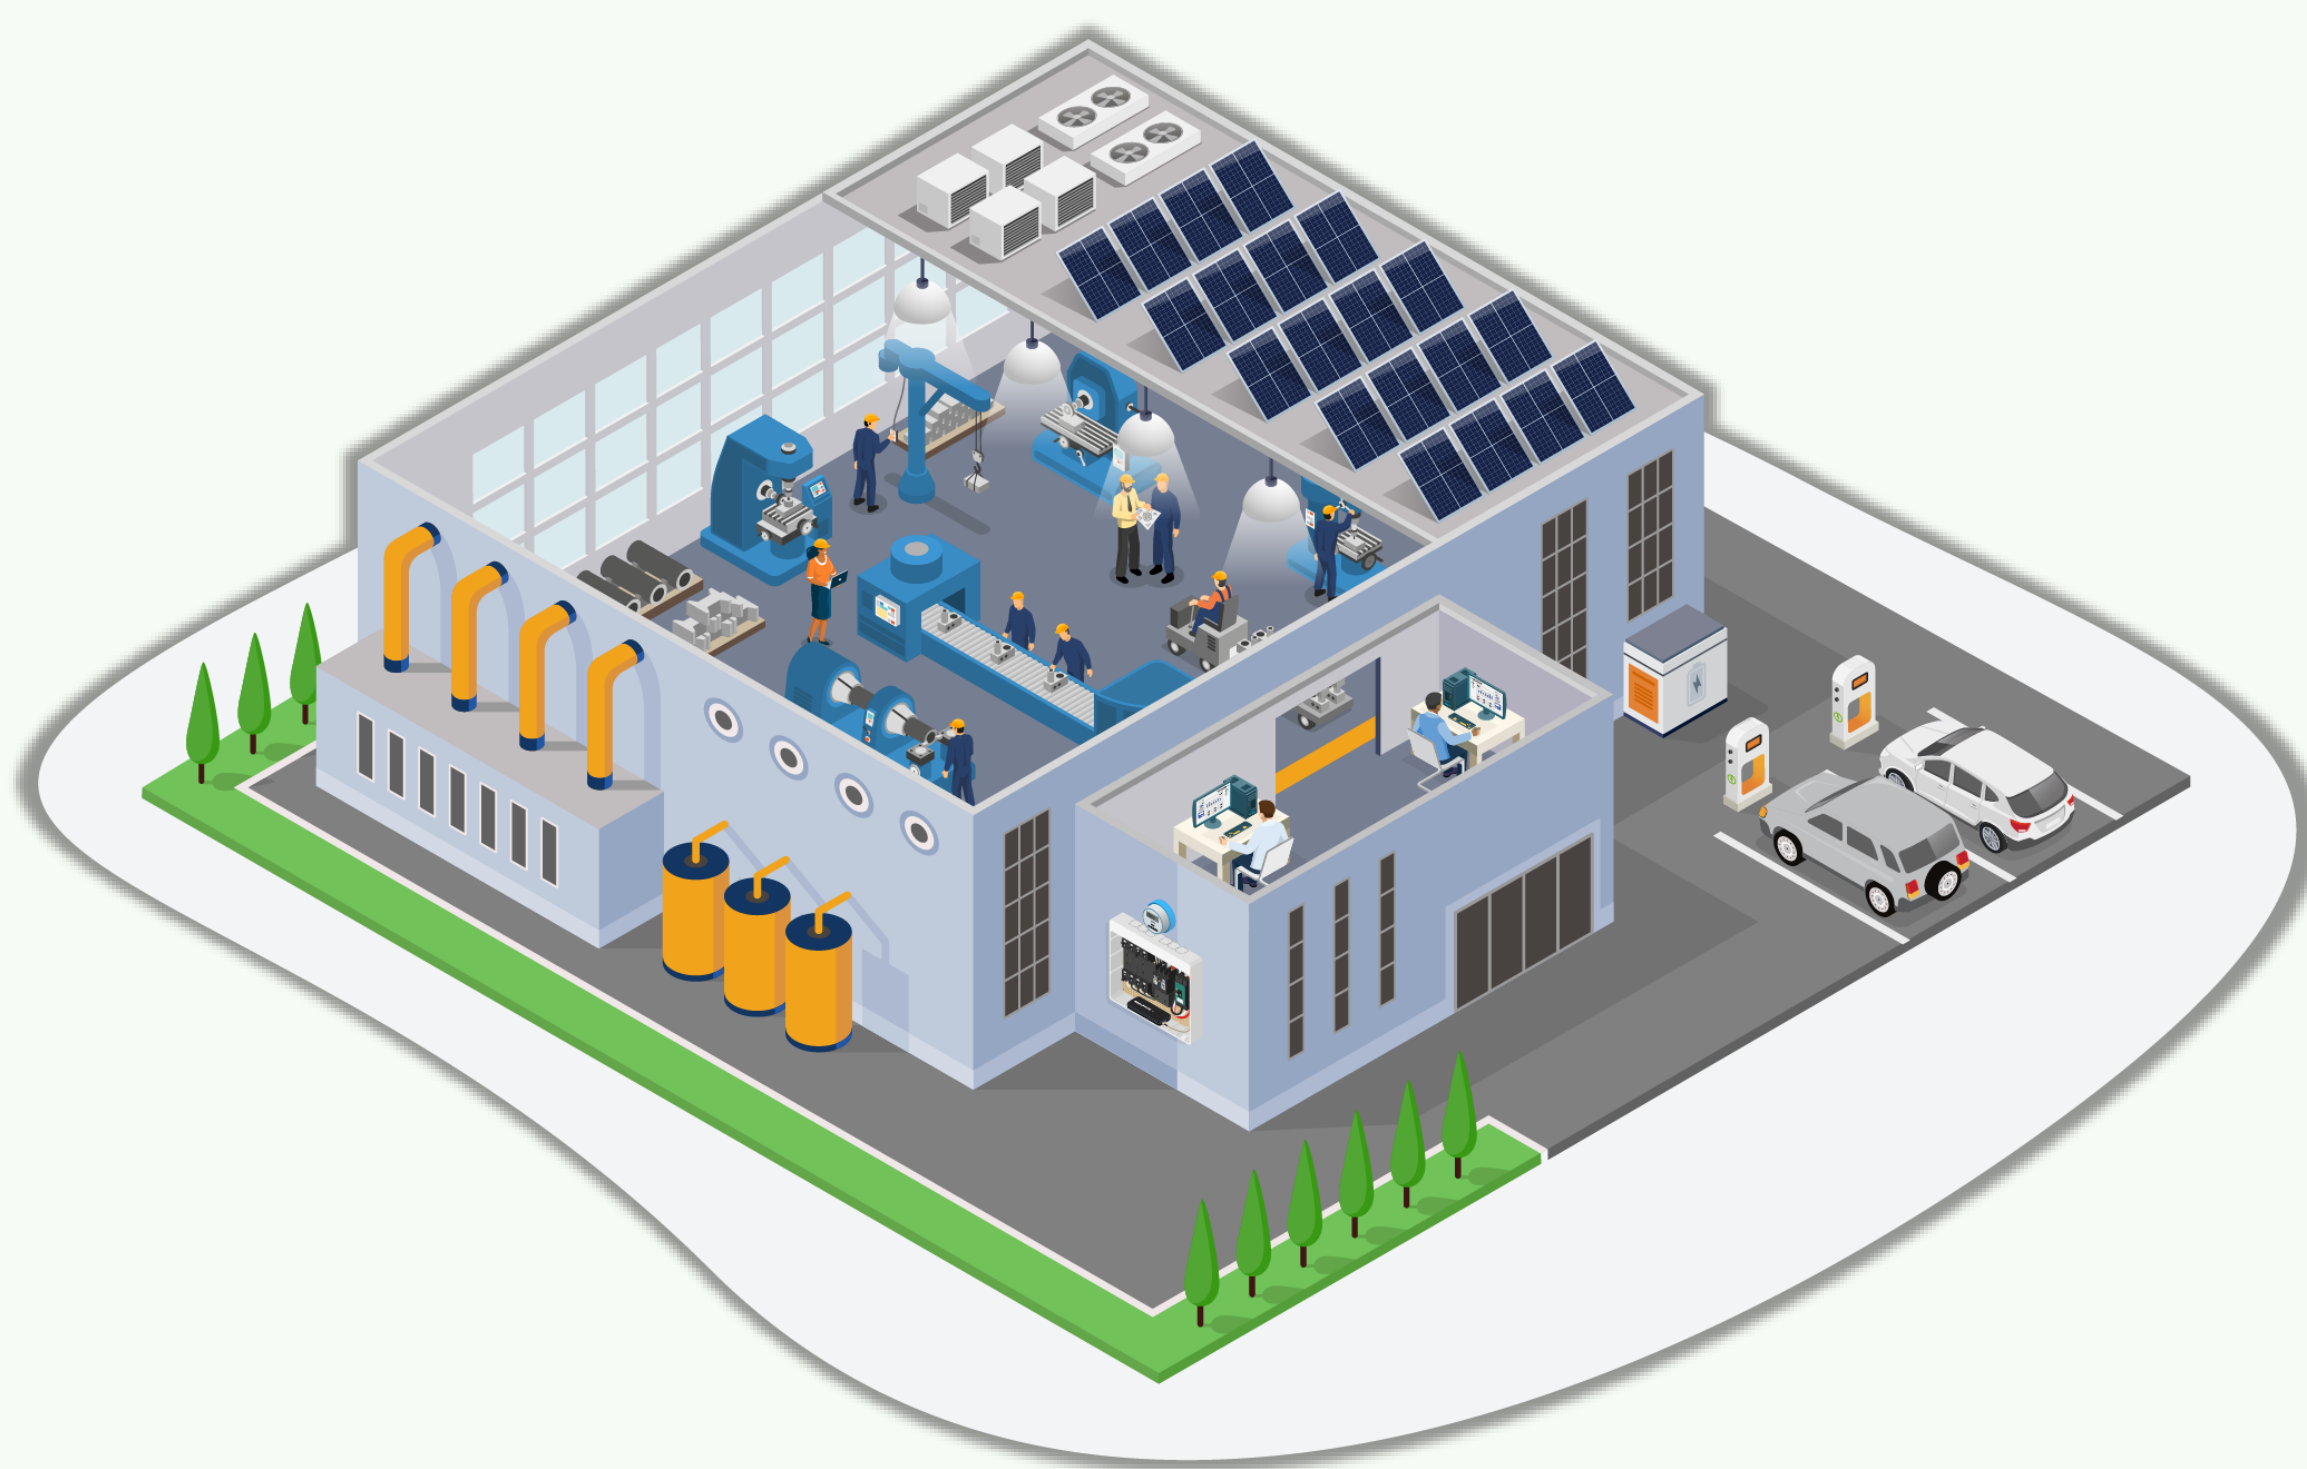

Unlock the power to rapidly advance energy efficiency projects and renewable upgrades across your manufacturing landscapes at unprecedented speed.

The Redaptive platform enables manufacturing companies to implement their energy and infrastructure upgrades with no upfront cost, end-to-end project management and maintenance, and provides energy consumption insights to drive additional saving opportunities.

### Solve your challenges

- ✗ Tight budget allocations
- ✗ Lacking resources & technical expertise
- ✗ Difficult to quantify project ROI
- ✗ Pressured to reduce energy spend

- ✓ LED Lighting & Controls
- ✓ HVAC & central plant equipment
- ✓ Onsite Solar + Battery storage
- ✓ Facility Optimization

### With Redaptive's solutions

#### Energy-as-a-Service

- Easy, at-scale project execution
- Off-balance sheet structure
- Multi-technology expertise

#### Data Solutions

- Provides Measurement & Verification
- Deliver Consumption Insights
- Simplifies compliance reporting
- Supports Scope 2 & 3 reporting

#### Flexible Financing

- As-a-Service Funding
- Power Generation Financing
- Equipment Financing
- Lease Financing
- Asset Remarketing Services
