

Empowering Sustainability with Data-driven Insights

Redaptive simplifies the complexity, providing fully funded, end-to-end energy and sustainability solutions with data verification. We enable customers to accelerate optimization and achieve a more resilient building portfolio with improved tenant engagement and positive operational impacts.

Redaptive ONE Sustainability Data module provides access to utility data, analytic tools, and insights to make a compelling business case, simplify reporting compliance, and showcase the impact of sustainability initiatives to your stakeholders.

IoT electric, gas, and water metering technology enable real-time data visibility for your building and building portfolio.

Key Benefits for Sustainability Leaders

- » Simplified access to utility data.
- » Comprehensive building and portfolio view.
- » Seamless integration with **Energy Star Portfolio Manager**.
- » **API data integration** with customer's third-party applications.
- » Reduced burden on internal resources.
- » Support in identifying, funding, and implementing energy projects, further enhancing energy optimization efforts.

Connect with Us

Transform Your Building Portfolio with:

- Comprehensive Data Access:**
Gain direct access to real-time utility consumption data, bypassing lease structure limitation and utility bill accessibility to make informed decisions across your portfolio.
- Efficient Resource Management:**
Identify inefficiencies, set consumption targets, and implement resource-saving initiatives effectively across electric, water, and gas utilities to drive operational efficiencies and cost savings.
- Progressive Sustainability Impact:**
Make significant strides towards sustainability with aggregated consumption data to identify usage patterns, implement targeted conservation measure, and reduce your organization's carbon footprint.
- Streamlined Reporting Compliance:**
Simplify compliance with regulations and reporting requirements through our robust capabilities and analytics, while generating comprehensive sustainability reports that resonate with stakeholders.
- Increased Occupant and Tenant Engagement:**
Empower your occupants and tenants with informed choices, feedback and recognition to motivate energy-saving efforts

Foster a sustainable and comfortable environment, promoting a sense of community and shared responsibility among building occupants.

ONE central resource for multi-dimensional insights.

Redaptive ONE technology enables digital transformation for high-performance organizations.

- ✓ Cloud Connected Devices
- ✓ Accurate, High-frequency Data
- ✓ Scalable Solutions
- ✓ Secure
